Mock Pineapple/Diced Pineapple/Pineapple Nine Patch

Note: Pattern fee \$7.00 payable to the teacher in class (Tri-Recs ruler required)

All similar names for the same block ... just different settings. This pattern masquerades as a traditional pineapple but a quick piecing trick makes it fast for quilters of all skill levels.

Friday, April 21, 2017 @ 7:00 pm

Lecture & Trunk Show – Cathy is an experienced quilter and has written several quilting books and patterns. She has also developed a number of tools designed to make quilting easier for all. Cathy is traveling here from Crosby, Minnesota to show her creations at an evening trunk show in addition to teaching two classes.

Saturday, April 22, 2017: 8:30 am to 4:00 pm

Note: Tool and free pattern \$15 payable to the teacher in class

Triangle Genie Jr and Triangle Quick Step are tools for making triangles with no measuring – no kidding! Cathy will teach how to make 9 different triangle units, all from strips, all without measuring. The tool is designed to do basic half-square triangles, so students can use the free pattern or any pattern of their own as long as it has triangles (if wanting to the just learn the technique and not start another UFO – just bring 2-1/2” strips; light and dark or complimentary colors).

Note: Cathy will also teach a binding technique at each class.
